

*Certified Kurtz Ersä eLearning.*

# Discover New Horizons.

Start your training and  
further education for  
electronics production  
from € 199!

GLOBAL. AHEAD. SUSTAINABLE.

# Ersa eLearning revolutionizes further training

*The future of learning – our eLearning system offers customized courses, interactive content and flexible accessibility. Learn effectively when and where you want and achieve your learning goals.*

*Discover New Horizons.*

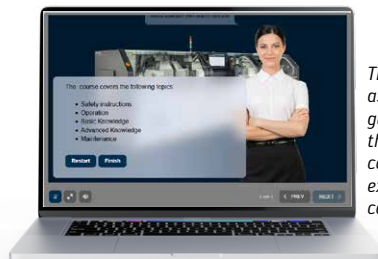

## Unique training system for machine soldering & stencil printing:

- Interactive and module-based process and machine courses for operation and maintenance
- Worldwide and device-independent usability
- 24/7 accessibility via Kurtz Ersa CONNECT or all common browsers
- Continuous upload of new learning materials
- Exclusive knowledge database with explanatory videos
- Support from digital assistants during the course

*Ersa eLearning:  
24/7, worldwide,  
device-independent*

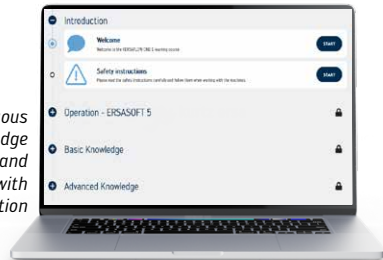

*Maintenance  
courses with  
checklist*

*The digital  
assistant  
guides you  
through  
courses and  
explains  
content*

*Continuous  
knowledge  
query and  
tests with  
certification*

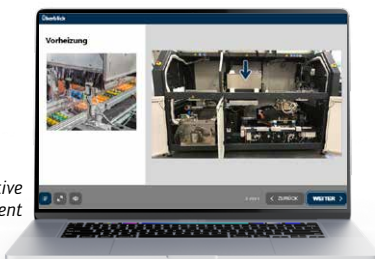

## *Certified and individual personnel qualification – your benefits:*

- Ensuring learning progress through examinations, final tests and certifications
- Increased efficiency in the production process thanks to trained staff
- Individual learning pace depending on level of knowledge
- Reduction in on-site training requirements & waiting times for face-to-face training
- Faster onboarding of new employees
- Knowledge refreshment for existing employees

*Interactive  
content*

*Video library  
available at  
any time as a  
separate area*

## *Innovative & affordable – Certified personnel training with eLearning from the world market leader Ersä*

**Machine training** for operators, setters, maintenance staff, ...

**Content:**

- Operation of the soldering systems
- Software
- Machine and modules
- Maintenance content with additional video library
- Advanced topics on calibration, profiling and process instructions

**Available courses:**

- Selective soldering machines: VERSAFLOW 3, 4, ONE
- Wave soldering machines: POWERFLOW PRO, ULTRA
- Reflow soldering machines: HOTFLOW ONE, THREE, HOTFLOW 3, 4, & EXOS
- More courses to follow!

License per machine  
per year only € 199,-

**Process training** for process engineers, line managers, designers, ...

**Content:**

- General information
- Process parameters
- Layout
- Error patterns and causes
- Additional documents and recordings from our WEBinERSA series

License per process  
per year only € 199,-

**Flat rate machine training**

One license for all contents of the entire available Ersä machine portfolio.

All available machine  
courses per year  
only € 450,-

**Group licenses as attractive package.**  
**Offers on request.**
